**Re:** CIM for Love Fellowship

---

CIM meeting was held at the William Paca/Old Post Road Elementary School, Cafeteria/Multi-purpose room today at 7:00 pm. The community was in attendance and a sign in sheet was circulated to get their names and addresses.

The plan was described showing the new church building being 18,400 sf church building with 500 seat sanctuary and parking surrounding the building. Building elevations were shown to the attendees as well to show the intended look of the building.

Discussion centered around traffic in the area and Harford County in general. One group of residents did not want any more development in Harford County period.

The other point of discussion was in regard to another property north of this site termed the "Harford Education Center" and whether this church would have outside services and activities like they do at that location. Pastor Terrance Thompson addressed this issue and stated that there would not be any outdoor services.

Meeting was adjourned approximately 7:45.
